

NORTH SOLANO SERVICE DISTRICT  
CALIFORNIA NORTHERN COASTAL AREA  
GENERAL SERVICE CONFERENCE

P.O.Box 795  
Fairfield, CA 94533  
December 9, 1978

Bill W                      Chairman  
California Northern Coastal Area  
General Service Conference

The North Solano Service District Committee, at its regular monthly meeting held this date, approved the following action, with instructions that it be presented in writing to the Area Committee at its December meeting:

"The North Solano Service Committee respectfully requests that it be recognized as a "geographical unit containing the right number of groups--right in the terms of the committee members ability to keep in frequent touch with them, to learn their problems, and to learn how he can contribute to their growth and well being"--to warrant the status of a full fledged General Service District, and that any reference to the District as a "sub" district be discontinued."

"The District Committee Member is an essential link between the group General Service Representatives and the Area's delegate to the General Service Conference." In order that this link may be direct and unbroken, this Committee asks that all communications between this District Committee and the Area Committee be maintained on a direct basis; communications being defined as reports, suggestions, information and instructions, both written and verbal.

This action is taken in the spirit of Co-Founder Bill W's concept of General Service Structure, who felt the answer to growth could always be found in the setting up of more districts.
